

Delta distributions for significant metrics (SAR only)

- Implementation Smell – Long Parameter List
- Implementation Smell – Complex Method
- Implementation Smell – Magic Number
- Implementation Smell – Long Method
- Implementation Smell – Missing Default
- Implementation Smell – Complex Conditional
- Implementation Smell – Empty Catch Clause
- Implementation Smell – Long Statement
- Design Smell – Cyclic Dependent Modularization
- Design Smell – Insufficient Modularization
- Design Smell – Deficient Encapsulation
- Design Smell – Broken Hierarchy
- Design Smell – Unutilized Abstraction
- Class-Level Metric – Depth of Inheritance Tree
- Class-Level Metric – Fan-Out
- Class-Level Metric – Fan-In
- Class-Level Metric – Number of Methods
- Class-Level Metric – Weighted Methods per Class
- Class-Level Metric – Lines of Code
- Method-Level Metric – Parameter Count
- Method-Level Metric – Cyclomatic Complexity
- Method-Level Metric – Lines of Code
